PS: Function may be changed and upgraded according to the bracelet firmware’s update.
4. Pairing.

Keep your phone with Bluetooth “on” for this step. Keep the screen lighting and the fitness band show icon of radar.

Android device will pop up 【Confirm pair with “right ID”】，click “confirm” and it will be connected.

IOS device will pop up 【Pair Device Success】，【Bluetooth Pairing Request】，click “pair”，and finish paring.
If the pairing pop-up do not appear within 1 minute, repeat the above steps. There would be a Bluetooth icon instead of the Radar icon.

**SYNC Data**

The bracelet SYNC data automatically after connected with phone by APP (LinkFit), the bracelet time will be calibrated same as the time of phone. SYNC data includes: steps, calorie, distance. You can check out if the data SYNC is completed successfully on the APP. First SYNC data takes 1-2 minutes. SYNC data can be done manually by clicking the refresh button on APP. Where unable to be data synchronous, disconnected the Bluetooth, try connection again and start data synchronization.

**6. Sleep monitor**

Turn on Sleep Mode: Slide to the moon icon, long press the icon till the band shakes, then it pop up and shows time and moon icon, it means under sleeping mode.
Exit the sleep mode: Long press the screen to light-on the screen, long press once more till it shakes, then the moon icon will disappear and back to the original that shows time, it means sleeping-mode exit.

7. Auto sleeping mode

Turn on the sleeping-mode by setting, the band will check if you are under sleeping-mode during 8:00p.m.-9:00a.m.

8. Looking mobile phone

Long press the looking phone icon till in shakes, the searching mobile will ring if it is under ringing mode, will shakes one time if it under vibration mode.
9. Sedentary reminder

Open the Sedentary reminder and settle the time quantum by the Sedentary reminder setting; the time settling should be a valid time quantum, like 9:00-17:00 instead of 9:00-5:00, then it under Sedentary reminder mode successfully.

The band will shakes and shows sedentary icon if keep motionless for an hour.

10. Alarm clock

Add alarm by the Alarm setting, when it comes to the settled time,
11. Camera remote controller

Open the camera by APP, the band will show camera icon, Camera remote controller realized by long pressing the icon.

12. Calling and message reminder
Check the push reminder and open all the notification items, for IOS, it shows like the picture 12-1, when you are going to open the Message Notify.

If it is unable to get notifications when the band is connected with mobile phone, disconnected the band with mobile phone and shut down the notification function, then re-open it up.
